## WIRED PIR SENSOR

### OVERVIEW:

The Mx-OPUS-HPML provides a lighting OEM with considerable flexibility when it comes to incorporating the sensor into their fixture. The Mx-OPUS-HPML is paired with either the Mx-OPUS-DRD, Mx-OPUS-DR10V, Mx-OPUS-DRDLV or the Mx-OPUS-DRDHV. The Mx-OPUS-HPML includes a digital LUX sensor and a PIR occupancy sensor. The two piece scenario allows for flexibility when installing into fixtures where there isn't significant room for an all-in-one option. This node is rated for up to 39 feet (11 meters) and is also UL listed.
